■ 1. KETO DIET — INDIAN VEGETARIAN APPROACH

The **Ketogenic diet** is a high-fat, moderate-protein, very-low-carbohydrate eating plan that shifts your body's primary fuel source from glucose to **ketones** (produced from fat). This 30-day plan is specifically designed for **Indian vegetarians**, using familiar ingredients and traditional recipes adapted for ketogenic macros.

Key Macronutrient Targets:

Macro	% of Calories	Indian Vegetarian Sources
Fats	65–75%	Paneer, ghee, coconut oil, nuts, seeds, avocado
Protein	20–25%	Paneer, tofu, eggs (if lacto-ovo), Greek yogurt, dal (limited)
Carbohydrates	5–10%	Green vegetables ONLY — keep net carbs under 20–25 g/day

Indian vegetarian keto requires replacing rice, roti, and lentils (high-carb staples) with cauliflower rice, almond flour rotis, paneer, and healthy oils.

■ 2. WEEK 1: TRANSITION PHASE (DAYS 1–7)

Goal: Gradually reduce carbohydrates to 50 g/day (not zero immediately — avoid keto flu shock). Your body is adapting — expect some fatigue and cravings in days 3–5. This is normal.

Days	Meal	Menu
Day 1–2	Breakfast	Paneer Bhurji (scrambled paneer with vegetables) + masala chai with almond milk
Day 1–2	Lunch	Palak Paneer + 1 small Almond Flour Roti
Day 1–2	Dinner	Cauliflower Rice + Mushroom Curry + salad
Day 3–4	Breakfast	Methi Thepla (almond flour, methi, ghee) + low-carb pickle
Day 3–4	Lunch	Tofu Stir-Fry with coconut oil + zucchini noodles
Day 3–4	Dinner	Egg Curry (or Paneer Curry) + cauliflower mash
Day 5–7	Breakfast	Avocado toast on almond bread + green tea
Day 5–7	Lunch	Broccoli + Paneer sabzi with ghee tadka
Day 5–7	Dinner	Spinach soup + grilled paneer tikka

Week 1 Snacks: Handful of almonds/walnuts, paneer cubes with chaat masala, cucumber with coconut chutney

■ 3. WEEK 2: ENTERING KETOSIS (DAYS 8–14)

Goal: Reduce net carbs to 20–25 g/day. By day 10–12, most people enter ketosis. Signs: sweet/fruity breath, mental clarity, reduced hunger, increased energy.

Days	Meal	Menu
Day 8–10	Breakfast	Keto Masala Omelette (3 eggs / paneer, veggies, spices, ghee)
Day 8–10	Lunch	Palak Paneer (no onion gravy) + cauliflower rice
Day 8–10	Dinner	Zucchini noodles + Avocado-Coconut cream sauce + roasted paneer
Day 11–14	Breakfast	Chia seed pudding with coconut milk + 10 almonds
Day 11–14	Lunch	Mixed veg stir-fry (broccoli, capsicum, mushroom) in coconut oil
Day 11–14	Dinner	Paneer Tikka (grilled, no cream sauce) + mint chutney + salad

Ketosis testing: Use urine ketone strips (Ketostix) or blood ketone meter. Target: 0.5–3.0 mmol/L

■ 4. WEEK 3: DEEP KETOSIS (DAYS 15–21)

Goal: Maintain 20 g net carbs/day. By now you are fat-adapted. Energy is stable, hunger is reduced, and fat loss should be clearly visible. This is the most productive week.

Days	Meal	Menu
Day 15–17	Breakfast	Almond Flour Paratha with ghee + paneer filling
Day 15–17	Lunch	Paneer Tikka Masala (low-carb gravy) + broccoli
Day 15–17	Dinner	Egg drop soup / Paneer soup + roasted seeds
Day 18–21	Breakfast	Coconut milk smoothie (spinach, protein, coconut cream, seeds)
Day 18–21	Lunch	Methi Paneer Bhurji + cucumber salad with olive oil dressing
Day 18–21	Dinner	Baked stuffed capsicum (paneer, herbs, cheese)

■ 5. WEEK 4: MAINTENANCE (DAYS 22–30)

Goal: Solidify keto eating habits. You can slightly increase carbs (25–30 g/day) to find your personal carb threshold. Focus on long-term sustainability.

Days	Meal	Menu
Day 22–25	Breakfast	Keto Upma (cauliflower + mustard seeds + curry leaves + ghee)
Day 22–25	Lunch	Dal Makhani (limited quantity, 50 g black lentils) + salad
Day 22–25	Dinner	Stuffed Bell Peppers with paneer, herbs, cheese filling
Day 26–30	Breakfast	Smoothie bowl: coconut yogurt + nuts + seeds + berries (½ cup)
Day 26–30	Lunch	Paneer steak with sautéed spinach + ghee drizzle
Day 26–30	Dinner	Green vegetable soup + almond flour bread + nut butter

■ 6. FULL RECIPE GUIDE

● PANEER BHURJI

Prep: 5 min • Cook: 10 min • Serves: 2

Ingredients:

- 200 g fresh paneer, crumbled
- 1 tbsp ghee or coconut oil
- ½ tsp cumin seeds
- ½ onion, finely chopped (optional — omit for strict keto)
- 1 green chilli, finely chopped
- ½ cup capsicum (bell pepper), diced
- Salt, turmeric, coriander powder to taste
- Fresh coriander leaves for garnish

Method:

- Step 1: Heat ghee in a pan; add cumin seeds until they splutter
- Step 2: Add green chilli and capsicum; sauté 2 minutes
- Step 3: Add crumbled paneer; mix gently
- Step 4: Season with salt, turmeric, coriander powder
- Step 5: Cook on medium heat for 5 minutes, stirring occasionally
- Step 6: Garnish with fresh coriander; serve hot

Macros per serving: Calories: ~320 kcal • Protein: 22g • Fat: 24g • Net Carbs: 4g

● CAULIFLOWER RICE + MUSHROOM CURRY

Prep: 10 min • Cook: 20 min • Serves: 2

Ingredients:

- 1 large cauliflower head, grated / pulsed in food processor
- 250 g mushrooms (button or oyster), sliced
- 2 tbsp coconut oil
- 1 cup coconut cream
- 1 tsp each: cumin, coriander, turmeric, garam masala
- 2 garlic cloves + 1 inch ginger (paste)
- Salt and fresh coriander to taste

Method:

- Step 1: Cauliflower rice: Sauté grated cauliflower in 1 tbsp oil, 5 min. Season with salt. Set aside.
- Step 2: Mushroom curry: Heat 1 tbsp oil; add garlic-ginger paste and fry 1 min
- Step 3: Add spices; stir 30 sec, then add mushrooms
- Step 4: Cook mushrooms until golden (5–7 min)
- Step 5: Add coconut cream; simmer 5 min until sauce thickens
- Step 6: Serve mushroom curry over cauliflower rice

Macros per serving: Calories: ~380 kcal • Protein: 10g • Fat: 34g • Net Carbs: 8g

● KETO ALMOND FLOUR PARATHA

Prep: 10 min • Cook: 15 min • Makes: 4 parathas

Ingredients:

- 1 cup almond flour (blanched)
- 2 tbsp psyllium husk (binds the dough)
- 1 tbsp ghee + extra for cooking
- ½ tsp ajwain (carom seeds)
- Salt to taste
- 4–5 tbsp warm water (adjust for dough consistency)

Method:

- Step 1: Mix almond flour, psyllium husk, ajwain, and salt in a bowl
- Step 2: Add ghee and mix until crumbly
- Step 3: Add warm water gradually — form soft, pliable dough
- Step 4: Divide into 4 balls; roll between two parchment sheets (prevents sticking)
- Step 5: Cook on medium tawa (griddle) with ghee, 2 min per side until golden
- Step 6: Serve with butter, cream cheese, or low-carb paneer filling

Macros per serving: Calories: ~210 kcal • Protein: 6g • Fat: 18g • Net Carbs: 3g (per paratha)

■ ADDITIONAL RECIPES

Recipe	Quick Method	Macros (per serving)
1. Spiced Avocado Salad : 2 tbsp avocado oil, 1 tsp lemon juice, garlic, salt, pepper. Blend avocado with oil, lemon, garlic to make sauce. 20g carbs, 15g protein, 25g fat, 4g fiber.	2. Paneer Tikka : 1 tsp each: cumin, coriander, garam masala, chilli powder. Marinate paneer 2+ hrs. Grill 3-4 min. 340 kcal, 24g protein, 22g fat, 4g fiber.	3. Mustard Chutney : 1 tsp ghee, green chilli, ginger, salt. Heat ghee, splutter mustard seeds, add curry leaves, chilli, ginger. 190 kcal, 1g protein, 15g fat, 10g carbs.

■ 7. EXERCISE PROTOCOL

Type	Frequency	Details
Cardio (Fat Burning)	3–4×/week	30–40 min brisk walking, cycling, swimming, or LISS (low intensity steady state)
Strength Training	3×/week	Bodyweight or gym: squats, push-ups, lunges, planks, resistance bands
Yoga / Flexibility	Daily	20–30 min morning yoga — improves cortisol levels and aids fat loss
Rest Days	1–2×/week	Complete rest or light stretching; sleep 7–9 hours

■ 8. KETO TIPS FOR INDIAN VEGETARIANS

- **Electrolytes are critical:** Keto flushes water (and electrolytes) rapidly. Supplement sodium, potassium, and magnesium daily
- **Replace dal/rice with paneer:** Dal is high-carb; use paneer and tofu as your main protein sources
- **Cook with ghee and coconut oil:** These are your best keto-friendly Indian cooking fats
- **Use almond flour and coconut flour:** Replace wheat atta for chapati, pancakes, and baked goods
- **Cauliflower is your best friend:** Cauliflower rice, cauliflower upma, cauliflower biryani — it replaces rice perfectly
- **Read labels carefully:** Indian packaged foods often hide sugar — check everything
- **Eat mindfully, not just macros:** Stress management and sleep quality matter as much as diet

■ 9. FOODS TO EAT & AVOID

Category	Protein/Fats	Vegetables/Fruits	Nuts/Seeds
■ EAT FREELY	Paneer, tofu, eggs, ghee, coconut oil, paneer butter (malai)	Broccoli, cauliflower, zucchini, spinach, beetroot, palak	Almonds, walnuts, flaxseeds, chia seeds, pumpkin seeds
■ EAT IN MODERATION	Full-fat yogurt, cheese, heavy cream	Onion, tomato (small amounts), lemon, berries (50g max)	Cashews (higher carb nut — limit to 10/day)
■ AVOID COMPLETELY	Rice, wheat roti/naan, bread, pasta, dal, lentils	Garlic, chickpeas, rajma (all legumes are high carb)	Sugar, jaggery, honey, all sweets, fruit juices, soda

■ 10. EXPECTED RESULTS & TRACKING

Period	Expected Loss	What to Expect
Week 1	1–3 kg	Mostly water weight; some fat. Keto flu possible (fatigue, headache) — hydrate and electrolyte supplement
Week 2	1–2 kg	Entering ketosis. Energy improving. Mental clarity increasing. Hunger reducing
Week 3	1–2 kg	Deep ketosis — consistent fat loss. Body composition visibly improving
Week 4	0.5–1.5 kg	Fat-adapted state. Metabolism optimized. Sustainable long-term fat loss established
Total 30-Day	4–8 kg	Typical result varies based on starting weight, compliance, and exercise

Track weekly: Body weight (same time, same day), waist measurement, energy levels (1–10), ketone levels (if testing)
