

Pharmaceutical Performance Science (18+)

Module 11

Cycle Design: Beginner to Advanced Protocols

Module Overview

This module is part of the **Pharmaceutical Performance Science (18+)** offered by Royal Fitness Club Academy. In this module, you will explore the key concepts and practical applications essential to your fitness education journey.

Topics Covered in This Module

1. Golden rule: bloodwork before anything
2. Testosterone-only first cycle: reasoning and dosing philosophy
3. Adding compounds: blast and cruise concepts
4. TRT (Testosterone Replacement Therapy) explained
5. HCG protocol during longer cycles
6. Why less is more: the dose-response curve

Learning Objectives

- ✓ Understand and articulate the core concepts presented in this module.
- ✓ Apply the knowledge gained to real-world fitness and coaching scenarios.
- ✓ Critically evaluate evidence and best practices in this topic area.
- ✓ Complete the module assessment with a minimum score of 70% to earn your RFC Certificate.
