

Pharmaceutical Performance Science (18+)

Module 12

Peptide & SARM Stacking Protocols

Module Overview

This module is part of the **Pharmaceutical Performance Science (18+)** offered by Royal Fitness Club Academy. In this module, you will explore the key concepts and practical applications essential to your fitness education journey.

Topics Covered in This Module

1. GHRH + GHRP combination for GH pulse amplitude
2. SARMS stack: LGD + RAD-140 — synergy and suppression
3. Peptide + SARM combinations: rationale and monitoring
4. Healing stack: BPC-157 + TB-500 dosing protocol
5. IGF-1 LR3 timing post-workout protocol
6. Why stacking without knowledge dramatically increases risk

Learning Objectives

- ✓ Understand and articulate the core concepts presented in this module.
- ✓ Apply the knowledge gained to real-world fitness and coaching scenarios.
- ✓ Critically evaluate evidence and best practices in this topic area.
- ✓ Complete the module assessment with a minimum score of 70% to earn your RFC Certificate.

■ Important Note

This PDF is your study companion for Module 12. Use it alongside your online course co
