

Sports Medicine & Physio Expert
Module 5

Tendinopathy Science & Advanced Management

Module Overview

This module is part of the **Sports Medicine & Physio Expert** offered by Royal Fitness Club Academy. In this module, you will explore the key concepts and practical applications essential to your fitness education journey.

Topics Covered in This Module

1. Continuum model of tendinopathy (Cook & Purdam)
2. Heavy slow resistance (HSR) training for tendinopathy
3. Isometric loading for acute pain reduction
4. Eccentric training: where it works and where it does not
5. PRP (Platelet-Rich Plasma) injections: current evidence
6. Shockwave therapy: ESWT protocols and evidence levels

Learning Objectives

- ✓ Understand and articulate the core concepts presented in this module.
- ✓ Apply the knowledge gained to real-world fitness and coaching scenarios.
- ✓ Critically evaluate evidence and best practices in this topic area.
- ✓ Complete the module assessment with a minimum score of 70% to earn your RFC Certificate.
